

East Coast National Scenic Area, Taiwan 東海岸國家風景區規劃 (台灣東部)

178 KM of coastline
Planning

東海岸沿線110哩長範圍
規劃

This major project included a comprehensive study of a complex and diverse coastline. A research and analysis phase was followed by site selection for many tourism uses, several site specific master plans, and a set of design guidelines covering two counties.

此計畫案主要深入剖析多樣且複雜的海岸沿線景觀，以此調查分析的結果，擇定最適多數遊客使用的活動地點、數個應進行進一步規劃分析的位置、及涵蓋花蓮與台東兩地的一套完整設計準則。
