

## Tan Hai New Town, Tan Hai, Taiwan 淡海新市鎮 (台灣, 台北)

1700 Hectares  
Planning

This new town plan is the winner of an international design competition. The overall plan envisions a total population of 350,000 people. Major design tasks included an urban design core area plan, the establishment of an architectural theme, & a refined open space system that excluded pedestrian / vehicle conflicts. Historical context and modern zoning techniques are blended to produce a 21<sup>st</sup> century community.
