

Chungli Plaza , Chungli City, Taiwan 中壢廣場 (台灣·中壢)

1.5 Hectares
Urban Design

The Chungli Plaza is designed for 'urban activity'. Retail uses, restaurants and cafes, movable market stalls, seating, waterfalls, concerts and art auctions comprise some of the many elements and activities of the plaza. With several adjacent building clusters yet to be built, this plaza can guide the architectural design, creating an integrated example of urban design and architecture yet to be found in Taiwan.

1.5公頃
都市設計

中壢廣場是以進行「都市化活動」為設計目標，商場、餐廳及咖啡廳、活動販賣部、座椅、瀑布、音樂及藝術舞台等，均為設計元素亦為廣場上的活動項目。隨著鄰近建築群的興建，這個由廣場設計引導建築設計的計畫案，將使我們在台灣發現都市設計與建築完美結合的新範例。
