Urban Design

This is the central urban public open space for a new city of 500,000 people. The ease of pedestrian circulation and its relation to water become, along with respect of the inherent design character of Saigon, the attitude of this concept.

規劃

為50萬計畫人口的新市鎮所作的市中心開放空間規劃，整個步道系統的東側暨河岸地帶，皆是在尊重西貢傳統特色的態度下，進行規劃設計。
