This large granite stone and water garden is the main focus of a landscape open space system in a 586 unit residential complex. Over a dozen stone fountains of various configurations provide an extensive series of water movement from the dynamic to the sublime.

巨石及水景式花園是此案的設計重點。設計師利用各式各樣的噴泉及水景變化，塑造出空間的連續性，帶領使用者體驗一連串水的律動，將水景所能提供給人的愉悅發揮至極致。
